Our Representative Participated in the First APREA Connect "International Women's Day" Luncheon Meeting Sponsored by JLL

On March 27, 2025, we had the opportunity to participate in the Asia Pacific Real Estate Association (APREA) special luncheon in Tokyo, held in celebration of International Women's Day and sponsored by Jones Lang LaSalle (JLL). This event, part of APREA's broader initiative across Singapore, India, and Japan, provided a platform for meaningful discussions on women's careers and leadership in the real estate sector.

Held at an exclusive restaurant in Roppongi, the luncheon featured an engaging open talk by industry leaders Ms. Akemi Kito, Managing Director at PwC Tax Japan and APREA Japan Board Member, and Ms. Keiko Otsuki, Director at ES-CON Japan. They shared their personal experiences navigating careers while balancing family responsibilities such as parenting and caregiving. Their candid insights offered valuable takeaways for attendees striving for professional growth and work-life balance.

15 participants attended the event, which fostered a supportive and inspiring environment for both women and men committed to advancing gender equality in the workplace. The discussions continued informally over lunch, allowing attendees to exchange experiences and seek advice in a more intimate setting.

We are grateful to APREA and JLL for organizing this impactful event and look forward to future opportunities to engage in meaningful discussions on career development and workplace diversity.
